U.S. Webcon custom builds each machine to fit customer needs. Below is a basic list of machinery that we build for roll handling applications. However, the options are infinitely customizable, and we look forward to finding solutions to fit any application requirement.

## Roll loading and unloading

- Bucket Load or Unload
- Roll Up-ender or Down-ender
- Shaft puller/manipulator
- Roll prep table for slitter/winder

## Palletizing & Roll Bagging/Boxing

- Semi-automatic or fully automatic
- Pyramid stacked or cross stacked
- Positioned horizontally or vertically
- Placed in bins

## Roll conveyance systems

- Mobilight A-frame units
  - spline drive stands available (see photos below)
- Carts
- V-belt conveyors
- Conveyor belts

## Roll or Pallet Stretch Wrapping

- Two drum stretch wrap modules can be built to fit into your existing line or as an addition to a new U.S. Webcon system

**US Webcon** is an American owned and operated company specializing in the design and manufacture of custom equipment for the web handling, converting and finishing industries. Below is an abbreviated listing of machinery in our product line:

### Accumulators

- Web Accumulators
- J-boxes

### Coating Heads

- Gravure (Reverse Gravure)
- Knife over roll
- Meyer Rod
- Padders

### Doctor Machines

- Logrollers
- Wide Web Turret Logrollers
- Salvage & Trim Winders
- Splice Stations
- Web Cleaners

### Inspection Equipment

- free standing or integrated
- Visual with illumination
- Electronic web inspection
  - color recognition
  - surface flaws
  - coating thickness
  - water content
  - particulate matter

### Laminators

- Flame Laminators
  - 2,3 or 4 roll laminators
- Roll Laminators / Calenders - Embossers

### Roll Handling & Packaging

- Palletizers
- Roll bagging & boxing
- Roll conveyance systems
- Roll loading & unloading
- Roll or pallet shrink wrapping

### Slitting Equipment

- free standing or integrated
- razor, shear or score
- edge trim removal
- varying degrees of automation

### Winding Equipment (Unwind/Rewind)

- Single position or Multi position
- Narrow Web
- Turret
- configurations for winding equip include:
  - shafted or shaftless
  - center, surface, or center/surface driven
  - varying levels of splice/transfer automation
